Player 1 reads their first card. Example: "I have a. who has m?" The player that has the letter that player one asks for goes next. Example: "I have m. Who has k?" Play continues until all cards are called.

Alternate game: Place 25 cards around the room. Give your child one card. Have him read the card out loud. Example: "I have a. who has m?" Have him find the card with the next letter. Example: "I have m. Who has k?" Play continues until all cards are found.
